

DISCOVER

Future Materials

PREVIOUS PARTNERS:

LET'S INNOVATE **FUTURE MATERIALS** TOGETHER!

In our **FUTURE MATERIALS** innovation program up to 4 different companies define their individual innovation field in the context of **advanced & innovative materials**.

Our ecosystem of researchers, young professionals, students and startups then develops a variety of new and feasible solutions by **combining relevant scientific findings with implementable innovations**.

accelerate and **scale** your innovation activities

save operational effort

minimize financial risks

18 000 INNOVATORS	1250 STARTUPS	130+ UNIVERSITIES	75 COUNTRIES
-----------------------------	-------------------------	-----------------------------	------------------------

THIS ACTIVELY PROMOTES MATERIAL DEVELOPMENT IN COMPANIES AND CREATES A REAL IMPACT ON THE ECONOMY AND SOCIETY.

HOW IT WORKS

<p>1. QUALIFICATION PHASE</p> <p>3 MONTHS</p> <p>We activate our global ecosystem and generate a variety of innovative teams and solutions.</p>	<p>2. PRE-SELECTION</p> <p>1 MONTH</p> <p>Out of all submitted solutions, you select the 2 most promising teams.</p>	<p>3. BOOTCAMP</p> <p>1 DAY</p> <p>Meet your final teams in a digital event organized by ekipa to go into a discourse about the solutions and shape the direction for further development.</p>	<p>4. COLLABORATION PHASE</p> <p>2 MONTHS</p> <p>The selected teams further develop & specify their solutions based on your requirements; first pilots are initiated.</p>	<p>5. FINAL EVENT</p> <p>1 DAY</p> <p>The finalist teams will present their solutions in a final pitch event organized by ekipa. Subsequent steps and cooperation opportunities will be discussed.</p>
