

INNOVATE 2030

PREVIOUS PARTNERS: BOSCH Atos Capgemini SWAROVSKI LIEBHERR GE B/S/H/

THE INNOVATION PROGRAM FOR IMPACTFUL SOLUTIONS

In our **INNOVATE2030** program, up to 5 different companies define their individual challenge in the context of the **17 SDGs**.

Our ecosystem of startups, research institutes and universities then develops a variety of innovative and feasible solutions in order to **establish sustainable technologies**, **foster social development** and to **ensure environmental & climate protection**.

accelerate and **scale** your innovation activities

save operational effort

minimize financial risks

engage in an exchange with actors from **politics** and **science**

18 000
INNOVATORS

1250
STARTUPS

UNIVERSITIES

75
COUNTRIES

BECAUSE SHARED KNOWLEDGE GROWS FASTER!

HOW IT WORKS

1. QUALIFICATION PHASE

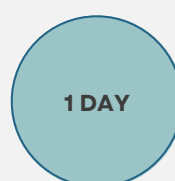

We activate our global ecosystem and generate a variety of innovative teams and solutions.

2. PRE-SELECTION

Out of all submitted solutions, you select the 2 most promising teams.

3. BOOTCAMP

Meet your final teams in a digital event organized by ekipa to go into a discourse about the solutions and shape the direction for further development.

4. COLLABORATION PHASE

The selected teams further develop & specify their solutions based on your requirements; first pilots are initiated.

5. FINAL EVENT

The finalist teams will present their solutions in a final pitch event organized by ekipa. Subsequent steps and cooperation opportunities will be discussed.
